INDEPENDENT AUDITORS' REPORT

Board of Trustees
Sonora Independent School District
807 South Concho
Sonora, TX 76950-3999

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sonora Independent School District as of and for the year ended August 31, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Sonora Independent School District as of August 31, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 8 and 31, respectively, be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sonora Independent School District's basic financial statements. The other supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 16, 2013, on our consideration of the Sonora Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sonora Independent School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Sonora Independent School District's financial performance provides an overview of the District's financial activities for the year ended August 31, 2013. It should be read in conjunction with the District's basic financial statements and independent auditors' report.

Financial Highlights

The District's assets exceeded its liabilities at the end of the current year by \$31,473,165 (net position). Of this amount, \$13,169,931 (unrestricted) may be used to meet the District's ongoing obligations.

The District's total net position decreased by \$865,353 or 3%. This amount consists of a \$903,325 decrease attributable to current year operations and a \$37,972 increase attributable to prior period adjustments. The District's statement of activities shows total revenues of \$13,260,990 and total expenses of \$14,164,315.

The total fund balance of the General Fund is \$12,944,267 which is a decrease of \$626,904 or 5% compared to the prior year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements - The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Overview of the Financial Statements - Continued

The statement of activities presents information showing how the District's net position changed during the current year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future years.

The governmental activities of the District include all activities related to public elementary and secondary education within the jurisdiction of the District

The District has no component units.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the current year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is considered to be a major fund. Data from other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its General Fund, Food Service Special Revenue Fund, and Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with the budget for each fund.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

Net Position - A summary of the District's net position is presented below:

NET POSITION

Total Net Position	<u>\$ 31,473,165</u>	<u>\$ 32,338,518</u>

A large portion of the District's net position (\$18,234,408) reflects the District's investment in capital assets, less any related debt used to acquire those assets that is still outstanding. These capital assets are used to provide public elementary and secondary education within the jurisdiction of the District; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position (\$68,826) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$13,169,931) may be used to meet the District's ongoing obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS - Continued

Financial Analysis of the District's Funds

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. The unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the current year.

The District's governmental funds reported combined ending fund balances of \$14,369,246, a decrease of \$148,344 or 1% in comparison with the prior year. These fund balances are reported in various governmental funds as follows:

General Fund \$12,944,267. Of this balance \$6,000,000 is assigned for capital expenditures for equipment.

Special Revenue Funds \$123,139. This balance is committed for use by the Campus Activity Funds of the District.

Debt Service Fund \$62,826. This balance is restricted for payment of long-term debt principal and interest.

Capital Projects Fund \$1,239,014. This balance is restricted for construction costs.

General Fund Budget

The original budget for the General Fund was \$12,246,432, and the final amended budget was \$13,127,505 which represents an \$881,073 increase in appropriations. Significant variances between the original budget and the final amended budget were caused by increases of \$408,531 in Instruction, \$56,533 in Extracurricular Activities, \$70,000 in Facilities Maintenance and Operations, \$97,884 in Data Processing Services, and \$175,000 in Facilities Acquisition and Construction.

The District has adopted a budget for the General Fund in the amount of \$11,885,881 for the fiscal year 2014, which is a decrease of \$1,241,624 from the fiscal year 2013.

Capital Assets and Debt

Capital Assets - Financial statement footnote III., D. discloses the District's capital asset activity for the year ended August 31, 2013.

Long-Term Debt - Financial statement footnote III., H. discloses the District's debt activity for the year ended August 31, 2013.

Requests for Information

The financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: James Hartman, Superintendent, Sonora Independent School District, 807 South Concho, Sonora, TX 76950-3999.

STATEMENT OF NET POSITION
AUGUST 31, 2013

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	14,369,246
1 Capital assets used in governmental activities are not financial resources and, therefore, are not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase (decrease) net position.		17,709,525
2 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including capital outlays and debt principal payments is to increase (decrease) net position.		1,961,994
3 Depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(1,249,472)
4 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, eliminating interfund transactions, reclassifying the proceeds from bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase (decrease) net position.		(1,318,128)

Total Net Change in Fund Balances - Governmental Funds	\$	(188,746)
Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of removing the capital outlays and debt principal payments is to increase (decrease) net position.	1,961,994	
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position.	(1,249,472)	
Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to the accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, adjusting current year revenue to show the revenue earned from the current year's tax levy, eliminating interfund transactions, reclassifying the proceeds from bond sales, and recognizing the liabilities associated with maturing long-term debt and interest. I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Sonora Independent School District is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America applicable to state and local governments. Additionally the District complies with the requirements of the Texas Education Agency's *Financial Accountability System Resource Guide* (the *Resource Guide*) and the requirements of contracts and grants of agencies from which it receives funds.

A. Reporting Entity

The District is governed by the Board of Trustees, a seven-member group, which is elected by the public and has governance responsibilities, including fiscal accountability, over all activities related to public elementary and secondary education within the jurisdiction of the Sonora Independent School District (the primary government). There are no component units included within the reporting entity.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities include programs supported primarily by taxes, State foundation funds, grants, and other intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges for services - payments from parties that purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment of the District and (2) grants and contributions - payments from organizations outside the District that are restricted to meeting the operational or capital requirements of a particular function or segment of the District. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

All interfund transactions between governmental funds are eliminated in the government-wide financial statements. Interfund activities between governmental funds and fiduciary funds remain as due to/due froms on the government-wide statement of net position.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other funds.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities, and fund balances are included in the balance sheet. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual

accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, revenues received from the state, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received they are recorded as unearned revenue until related and authorized expenditures have been made.

The government reports the following major governmental fund:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Additionally, the government reports the following fund type:

Agency Funds account for the activities of funds which are the property of student groups.

D. Interfund Receivables and Payables

Activity between individual funds may result in amounts owed between funds which are classified as Due To and From Other Funds. Other than amounts due to or from fiduciary funds these balances are eliminated in the statement of net position.

E. Receivables and Payables

Receivables are stated at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year.

F. Capital Assets

Capital assets are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

F. Capital Assets - Continued

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	10-40
Vehicles	5-10
Furniture and Equipment	5-10

G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

H. Compensated Absences

The District pays auxiliary 12-month employees for their unused vacation leave upon termination of employment. The accumulated vacation leave cannot exceed 20 days.

A liability for these amounts is reported in governmental funds only if they are payable as a result of employee resignations and retirements.

I. Fund Balances

In the fund financial statements, governmental funds report the following classifications of fund balance:

Restricted - Amounts that can be spent only for specific purposes because usage restraints have been imposed by external sources such as creditors (through a debt covenant), grantors, contributors, or laws or regulations of other governments.

Committed - Amounts that can be used only for specific purposes determined by a formal action of the Board of Trustees, the District's highest level of decision-making authority. Commitments may be modified or rescinded only through formal action by the Board of Trustees.

Assigned - Amounts that are intended for a specific purpose but do not meet the definition of restricted or committed. The intent can be expressed by the Board of Trustees or by a Board designee.

Unassigned - Amounts that have not been assigned to other funds or restricted, committed, or assigned to a specific purpose within the General Fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

I. Fund Balances - Continued

The details of the fund balances are included in the governmental funds balance sheet.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

In the General Fund, the District strives to maintain a yearly fund balance in the general operating fund in which the total fund balance is five months of operating expenditures which includes unassigned fund balance of two months of operating expenditures.

J. Net Position on the Statement of Net Position

Net position on the statement of net position includes the following:

Net Investment in Capital Assets - This component of net position represents the difference between capital assets net of accumulated depreciation and the outstanding balance of debt, excluding any unspent debt proceeds, that is directly attributable to the acquisition, construction, or improvement of those assets.

Restricted for Debt Service - This component of net position represents the difference between assets and liabilities of the Debt Service Fund that consists of assets with constraints placed on their use by creditors.

Unrestricted - This is the difference between assets and liabilities that is not reported as Net Investment in Capital Assets or Restricted for Debt Service.

K. Property Tax Revenues

Property taxes are levied by October __ on the assessed value listed as of the prior January 1 for all property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed.

The District recognizes as tax revenues those taxes that are measurable and available. Measurable means the amount can be determined, and available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within the current period.

Taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles are based upon historical experience. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

L. Interfund Transfers

Permanent relocations of resources between funds of the reporting entity are classified as interfund transfers. For purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget

Formal budgetary accounting is employed for all required governmental fund types and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles.

The official school budget is prepared for adoption for required governmental fund types prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, the Debt Service Fund, and the Food Service Special Revenue Fund. The remaining Special Revenue Funds adopt project-length budgets which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles. The budget was amended throughout the year by the Board of Trustees. Such amendments are before the fact and are reflected in the official minutes of the Board.

III. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS

A. Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

Custodial Credit Risk - Deposits and Investments: In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits and investments in certificates of deposit may not be returned to it. The District's policy does not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits and investments, other than the following: The State of Texas requires that a financial institution secure deposits and investments made by state and local governments by pledging securities in excess of the highest cash balance of the government. The District is not exposed to custodial credit risk for its deposits since they are covered by depository insurance and pledged securities held by a third party in the District's name.

Concentration of Credit Risk: The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent five percent or more of the total entity investments represent a concentration risk. At August 31, 2013, all of the District's investments are in external investment pools.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At August 31, 2013, the District was not significantly exposed to credit risk.

Interest Rate Risk: The District's investment policy limits its investment portfolio to maturities of one year or less as a means of limiting its exposure to fair value losses arising from fluctuating interest rates.

Foreign Currency Risk: Not applicable

The carrying amount of the District's cash and temporary investments at August 31, 2013, approximates fair value and consisted of the following:

IV. OTHER INFORMATION

A. Pension Plan

Plan Description - The Sonora Independent School District contributes to the Teacher Retirement System of Texas (TRS), a cost-sharing multiple-employer defined benefit pension plan. TRS administers retirement and disability annuities and death and survivor benefits to employees and beneficiaries of employees of the public school systems of Texas. It operates primarily under the provisions of the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. TRS also administers proportional retirement benefits and service credit transfer under Texas Government Code, Title 8, Chapters 803 and 805, respectively. The Texas state legislature has the authority to establish and amend benefit provisions of the pension plan and may, under certain circumstances, grant special authority to the TRS Board of Trustees. TRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report may be obtained by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

Funding Policy - Contribution requirements are not actuarially determined but are established and amended pursuant to the following state funding policy: (1) The state constitution requires the legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation of all members of the system during the fiscal year; and (2) A state statute prohibits benefit improvements if, as a result of a particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Contribution rates and contribution amounts for fiscal years 2013-2011 are shown in the table below. These rates are set by the General Appropriations Act. In certain instances, the reporting district is required to make all or a portion of the state's and/or member's contribution and on the portion of the employees' salaries that exceeded the statutory minimum and on salaries paid from federal grants.

Fiscal Year	Member		State On-Behalf		District Amount

B. Retiree Health Plan

Plan Description - The Sonora Independent School District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS-Care), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas (TRS). TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by downloading the report from the TRS Internet website, www.trs.state.tx.us, under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701.

Funding Policy - Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and contribution amounts for fiscal years 2013-2011 are shown in the table below:

Fiscal Year	Active Member		State On-Behalf		District	
	Rate	Amount	Rate	Amount	Rate	Amount
2013	0.65%	\$ 42,828	0.5%	\$ 32,945	0.55%	\$ 36,239

The Medicare Modernization Act of 2003 which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for Texas Public School Retired Employee Group Insurance Program (TRS-Care), administered by TRS, to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. Medicare Part D payments made on behalf of the District for fiscal years 2013-2011 are shown in the table below:

Fiscal Year	Medicare Part D
2013	\$ 17,300
2012	17,085
2011	16,029

C. Health Care Coverage

During the year ended August 31, 2013, employees of the District were covered by a health insurance plan (the Plan) through the TRS - Active Care Program administered by the Teacher Retirement System. The District contributed \$164 of the employee-only premium per month, and employees, at their option, authorized payroll withholdings to pay contributions for dependents. Under the Plan, the District is not liable for costs incurred beyond the premiums paid.

IV. OTHER INFORMATION - Continued

D. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters, for which the District participated in a public entity risk pool. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding coverage for each of the past three fiscal years.

E. Property and Liability Coverage

During the year ended August 31, 2013, the District participated in the Texas Association of Public Schools Property and Liability Fund (the Fund).

The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for the Fund. The terms and limits of the stop-loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves.

For the year ended August 31, 2013, the Fund anticipates that the District has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2012, are available at the TAPS' offices.

F. Unemployment Compensation Coverage

During the year ended August 31, 2013, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop-loss coverage for the Unemployment Compensation pool.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2012, are available on the TASB Risk Management Fund website.

G. Workers' Compensation Insurance

During the year ended August 31, 2013, the District met its statutory workers' compensation obligations through participation in the Deep East Texas Self Insurance Fund (the Fund), a public entity risk pool, which is self-sustained through member premiums. The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers' Compensation Program is authorized by Chapter 504, of the Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The Fund and its members are protected against higher than expected claim costs through the purchase of stop-loss coverage for any claims in excess of the Fund's self-insured retention of \$1,000,000. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2013, the Fund carries a discounted reserve of \$4,953,686 for future development on reported claims and claims that have been incurred but not yet reported. For the year ended August 31, 2013, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on June 30. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of June 30, 2012, are available at the Fund's offices.

H. Contingencies

The District participates in numerous state and federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required, and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

I. Prior Period Adjustments

The fund balance of the General Fund was decreased a net of \$40,402 as follows:

- An increase of \$16,904 to record a prior period adjustment for a reduction in amounts owed related to Chapter 41 agreements.
- An increase of \$23,498 to record prior period adjustments for final state entitlement adjustments made by the State.

The net position of the government-wide statements decreased an additional \$2,430 to reclassify the unamortized debt issuance costs incurred in prior periods. The net position increased a net \$37,972 when combined with the above adjustments to the General Fund.

J. Commitments

The taxpayers of the District passed a bond issue during the 2013 fiscal year for the purpose of acquiring, constructing, renovating and equipping school facilities and acquiring school buses and transportation equipment in the amount of \$1,425,000. The District still had \$1,239,014 to be expended as of August 31, 2013.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Sonora Independent School District
807 South Concho
Sonora, TX 76950-3999

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Sonora Independent School District as of and for the year ended August 31, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 16, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sonora Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sonora Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sonora Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during the audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sonora Independent School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Board of Trustees
Sonora Independent School District
807 South Concho
Sonora, TX 76950-3999

Report on Compliance for Each Major Federal Program

We have audited the Sonora Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Sonora Independent School District's major federal programs for the year ended August 31, 2013. The Sonora Independent School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the Sonora Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Sonora Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Sonora Independent School District's compliance.

Opinion of Each Major Federal Program

In our opinion, the Sonora Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2013.

Report on Internal Control Over Compliance

Management of the Sonora Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Sonora Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
